

AKTIFIT PF 111 IN SCREEN PRINTING INKS (WHITE)

OBJECTIVE

Optimizing and improving the properties of a white screen printing ink

FORMULATION

Base formulation

+ 1.5 % Aktifit PF 111

RESULTS

Test Prints

success

success

success

success

SUMMARY

Adding **1.5 % Aktifit PF 111** to a white screen printing ink improves both the printing quality of the fine structures and the ink transfer. Especially at a type size of 4 pt, the sharpness of the contour is significantly increased.
